

LALISA BULA

Full Stacked Webdeveloper

About Me

I am dedicated and result-driven with strong commitment and passion in web-development. With this passion, I thrive in challenging environments that require adaptability and innovation. My journey in Web development began when I joined Software Engineering. Collaboration is at the heart of my work ethos, and I excel in team settings, leveraging diverse perspectives to drive success. I am constantly seeking opportunities to learn and grow,

EXPERIENCE

Debo Engineering
Remote Internship
july /2023 - August /2023

During this internship, I independently created my personal portfolio and collaborated with my teammates on various projects, utilizing GitHub as our primary platform for teamwork and version control

Visit Oromia Hackathon Competition
Addis Ababa - Ethiopia
(25-27) / sept/ 2023

Throughout the course of the competition, our team successfully developed a tourism-related website. Despite not achieving the desired outcome, I gained invaluable experience by participating as a competitor. I had the opportunity to observe numerous technological innovations and creative ideas presented by our fellow competitors

EDUCATION

Jimma University
Bachelor of Software Engineering
2020-2025
